let's make art

Thanks for taking an interest in our work and getting in touch with us.

As photographers we share an obsessive love of beautiful imagery! When we get together there is no end to the depth and breadth of discussion about light, gear, creativity and adventures in portraiture. We put our “all” into every photoshoot because it’s what feeds our creative souls.

We are passionate about capturing just the right expression, using the perfect amount of light to provide you with pet portraits that are fun, emotive and modern.

Our speciality is fine art portraiture using both studio and natural lighting. Our mission is to provide you with an experience tailored to your specific needs. Our aim is to capture a look, a smile, an expression that reveals a little about your pet and what makes them special.

Please take a look inside this welcome guide for more details about your upcoming session.

Christine & Carla

what to expect

Expect to have a surprising amount of fun!

We provide a relaxed and laid back environment. Our job to fuss over light, tame down unruly hair, straighten collars while we entertain you with our witty banter. Your job is to relax and enjoy.

Looking forward to meeting you!

four legged friends

S e s s i o n \$ 1 2 5

This includes a 30 minute session at a predetermined location or in our studio.

We will do same or next day sneak peek on facebook/instagram. Images (20 to 25) will be uploaded into a gallery for your private viewing. Fine art prints and digital images are available for purchase. We want to create a beautiful piece of

W h a t t o E x p e c t

Expect chaos. Bring a toy. Bring a towel. Bring back up. Just kidding. Be ready for a fun time to be had by all. Carla is known as the dog whisperer and Christine has, on more than one occasion, gotten down to gently wrestle your pet into the perfect pose. Smiles and all. The sessions are go with the flow with a splash of hilarity. It is the crazy things that happen that result in the best images. We have a lot of tricks, good speed and fast lenses to capture those moments. Your pet will feel like a rock star!

Choosing Christine & Carla Photography to take fun photos of our family dog was such an easy decision. These two women are so full of joy themselves that they also bring it out of anyone in their studio...even a nervous dog! Cooper loved the attention and most importantly our kids love their surprise portraits of their beloved dog. Such a fun experience! Thank you!
Karin

Your Session

We want you to be prepared for a fantastic photo experience with us! If you are wanting an outdoor session, the first step is deciding on a location. Fortunately we live in a city with spectacular scenery from city life to parks and beaches. Once you have chosen your ideal landscape for the shoot, camera in hand, Christine and Carla will scout it out in order to choose the perfect time of day to capture that complimentary lighting we all want. If it is in our studio, every day is a great lighting day!

Every session will be a little different however what will remain the same is that we will do all the fussing allowing you to relax.

a f t e r y o u r s e s s i o n

We always have a favorite image right after the shoot. We know it the second the shutter clicks. We can hardly wait to show it to you. So we do. We offer our clients a “sneak peek” of a few images on Facebook and Instagram for you to get excited about and share!

In 1-2 weeks time, a link to your private gallery will be emailed to you. This gallery is available for two weeks allowing you to choose your absolute favourite images for fine art print or digital upload.

We're not done yet!

We will not rest until you are sitting back on your couch looking at that beautifully framed photo on your wall. We will joyfully consult with you on the myriad of print options available to make sure that you are getting exactly what you want!
